

ASTHMA AGONY.

Munyon Has Mastered This Living Death.

A GREAT MEDICAL DISCOVERY.

No one who has not experienced or witnessed the agonies of asthma can realize the horrors of that disease. It is little exaggeration to say that sufferers from asthma die many times. Acute paroxysms frequently result in unconsciousness and sometimes in death. Like many other diseases which have baffled medical skill for centuries, however, asthma has met its master. Munyon's Asthma Herbs will stop the most violent paroxysm of asthma in three minutes. They are compressed into triangular pastilles, the most convenient form for carrying ever discovered. Used with the Asthma-Cure, they will positively and permanently cure you of asthma. Professor Munyon guarantees it. A box of Munyon's Asthma Herbs with Munyon's Asthma-Cure may be obtained from any druggist for one dollar.

Mr. Daniel W. Fink, 139 Church Street, Mahanoy City, Pa., says: "A member of my family suffered from asthma for a long time. Her distress during the paroxysms of asthma was very great. She tried a great many kinds of treatment without obtaining more than temporary relief. Finally, I placed her under treatment with the Asthma Herbs, using the Asthma Cure and Asthma Herbs, and I am pleased to state that this treatment has completely cured her." Munyon has a separate specific for each disease. For sale by druggists. Write to 25 cents. If in doubt, write to Professor Munyon, at Philadelphia, and get medical advice free.

STOCKS AND BONDS

SHARE MARKET STRIKES FULLY INTO A BULLISH GAIT.

And No Doubt Remains Regarding the Prompting Cause, Which is a Burst of Almost Assured Confidence That the Dawn of Better Times Will Soon Become the Broad Daylight of Prosperity—Prices Advance All Through the Session—Week's Developments All in Line With Restoration of Business Confidence.

New York, June 5.—There was no mistaking the strong bull character of today's market for stocks and bonds, nor was there any room for doubt that the motive for buying was greatly increased confidence over the general outlook for business in the country. The bear element was not a factor in the market at any time during the day except as eager buyers to cover short contracts before prices should rise beyond their reach. There was some profit-taking at intervals by the more conservative-minded traders, but apparently their only purpose in selling one stock was to put the proceeds into another. Such realizing sales as were made were all absorbed and in consequence, the upward course of price went merrily on from opening to close of the day's short session. The dealers were remarkably well distributed. Sugar showed the largest number of shares of any one stock, with 15,000 shares. Chicago Gas and Burlington followed close with over 15,000 shares each and St. Paul was not far behind. Of stocks that were dealt in to the extent of from 1,000 to 5,000 shares, there were about twenty, and a large number of the usually inactive shares showed a smaller number of sales, made up in part of odd lots bought by commission houses on outside orders. The general strength of the market was doubtless assisted by the aggressive strength shown by some of the more active stocks, notably Sugar, the grain and New Jersey Central. Reports from Washington that a treaty with Spain was being considered looking to the regulation of the naturalization of Spanish subjects as citizens of the United States had their effect in holding prices, as indicating a purpose to eliminate causes of friction between the two countries.

between the two countries. Missouri Pacific and Western Union joined the list of appreciating values. With the favorite of the bears thus shifted to the bull side of the market, there was practically no opposition left to the advancing tendency of the market.

THE WEEK'S REVIEW.

The week has been most remarkable for the increased confidence in buying and holding of securities especially railroad stocks and bonds. The improved tone of the speculation has been as remarkable for the absence of specific influences on the stocks market as for the confidence shown. There can be no doubt that a great part of the buying of stocks during the week has been predicted upon a conviction that the outlook for general business is greatly improved and that the country has turned the corner from the depression towards improvement. The cheerful confidence shown by the secretary of the treasury in public utterances has made a strong impression in Wall Street. Much account is taken of the contention that the volume of business is equal to that in the most prosperous of all years, although prices are still low.

Says Dunn's Review: Reports from all parts of the country show that retail distributions of products is unusually large and increasing, and a "comparison of prices this week in the leading branches of manufacturing shows a remarkable similarity to the course of prices in the earlier months of 1929, when the most wonderful advance in production and prices ever known in this or any other country was close at hand."

This feeling has secured a hold on the more sanguine element in Wall Street during the week, and is largely responsible for the bull market. It is due to a greater or less extent by various developments. The assurance of no longer devalued, as it is seen that the depletion of the surplus gold reserve in the treasury is not measured by the amount of gold exports. The decrease in the treasury reserve since the gold export movement began is, in fact, considerably less than two-thirds of the gold exports.

The growing prospects that the country's crops are to be plentiful and of good quality is accepted as giving the best possible assurance of increased prosperity and expanded business. The crop prospects have had an especially beneficial effect on the market for railroad securities. The reports of earnings from these railroads for the week have also added to their strength, and the assurance of no longer devalued, as it is seen that the depletion of the surplus gold reserve in the treasury is not measured by the amount of gold exports. The decrease in the treasury reserve since the gold export movement began is, in fact, considerably less than two-thirds of the gold exports.

The decrease in the treasury reserve since the gold export movement began is, in fact, considerably less than two-thirds of the gold exports.

Monthly Suffering.

Thousands of women are troubled at monthly intervals with pains in the head, back, breasts, shoulders, sides, hips, and limbs. But they need not suffer.

These pains are symptoms of dangerous derangements that can be corrected. The menstrual function should operate painlessly.

Wine of Cardui

makes menstruation painless, and regular. It puts the delicate menstrual organs in condition to do their work properly. And that stops all this pain. Why will any woman suffer month after month when Wine of Cardui will relieve her? It costs \$1.00 at the drug store.

LADIES' ADVISORY DEPARTMENT.
For advice in cases requiring special directions, address, giving symptoms, Ladies' Advisory Department, The Chattanooga Medicine Co., Chattanooga, Tenn.

WHY DON'T YOU GET A BOTTLE TO-DAY?

GLENWOOD, IOWA, Oct. 25th.
I have used McElree's Wine of Cardui and Theodor's Black-Draught for the diseases that they are recommended to cure and they have done me so much good that I can confidently recommend them to my friends.
MISS AVALINE LARSON.

and there was a fairly active demand from exporters, eastern shippers and the dressed beef trade, the offerings were easily disposed of. Bulls have been very dull, and prices are off in some instances as much as 25 cents, heavy bulls suffering the most. Calves are selling at high prices, owing to a good demand. Steers today ranged from \$4.00 to \$4.25, cows \$3.50 to \$4.00, and heifers \$3.75 to \$4.25.

Hogs.—With an estimated run today of 15,000 hogs, trade was slow, and prices on an average 25 cents per 100 pounds lower than yesterday, the bulk selling at \$3.45 to \$3.55, or about the same as a week ago. Heavy packing lots brought \$3.50 to \$3.60, and the offerings were easily disposed of. The provision market has ruled decidedly lower this week, under an extensive liquidation of speculative and weak holdings, and this helped to keep hogs from advancing, despite the decrease in the receipts.

Sheep.—There was the usual light Saturday supply of sheep and they were largely consigned to local slaughterers. Sheep are selling at \$2.50 to \$2.75, and lambs at \$3.00 to \$3.25. Spring lambs are active at \$5.00 to \$5.25 per 100 lbs. Receipts—Cattle, 400; calves, 75; hogs, 15,000; sheep, 4,000.

KANSAS CITY.
Kansas City, Mo., June 5.—Receipts 300. Market steady, only retail trade.

Hogs.—Receipts 8,000. Market steady to shade lower. Bulk of sales \$3.50 to \$3.60; heavy, \$3.50 to \$3.60; light, \$3.50 to \$3.60; yearlings, \$3.50 to \$3.60; pigs, \$3.50 to \$3.60.

ST. LOUIS.
St. Louis, Mo., June 5.—Cattle—Receipts 300. Market steady without any change. Hogs—Receipts 4,000. Market 5c lower; light, \$3.50 to \$3.60; mixed, \$3.50 to \$3.60; heavy, \$3.50 to \$3.60.

LIVERPOOL.
Liverpool, Eng., June 5.—The grain and provision exchanges were closed today.

WICHITA MARKETS.

ST. LOUIS & BALTIMORE.
Baltimore, Md., June 5.—The Browns downed the Orioles in a close game. The champions outbatted the visitors, but were unable to land on Esper, at critical moments. Maul made his debut today and pitched well, but was accorded poor support. He gave way to Hoffer in the eighth, who proved far less effective, issuing two passes to first, and allowing four singles, which scored the winning runs. Attendance, 7,233. Score: R H E Baltimore.....100010000—5 12 6 St. Louis.....002001102—6 12 3

Batteries: Baltimore, Maul, Hoffer and Brownman; St. Louis, Esper and Murphy. Umpire: Lynch. Time, 1:45.

BOSTON & PITTSBURGH.
Boston, Mass., June 5.—The magnificent batting of Duffy and Collins' splendid fielding were the features of today's game between Boston and Pittsburgh. In the ninth inning, with the bases full, Collins made a half-swing that prevented Pittsburgh from scoring. Attendance, 5,000. Score: R H E Boston.....10020000—5 12 6 Pittsburgh.....00000000—0 12 7

Batteries: Boston, Kibbans and Bergen; Pittsburgh, Hawley and Merritt. Umpire: O'Day.

CHICAGO & NEW YORK.
Chicago, June 5.—In the ninth inning, with the score four to three in favor of New York, Anson brought Griffith and Connor into the game to bat for Deane and Donohue. Three singles, a homer by Ryan and a steal home by McCormick, assisted by several bad errors, netted the Cubs seven runs and the game. Attendance, 4,500. Score: R H E Chicago.....10010001—7 10 14 New York.....10000000—4 8 8

Batteries: New York, Ruse and Warner; Chicago, Denner, Griffith and Klitzinger. Umpire: McPherson.

BROOKLYN & LOUISVILLE.
Brooklyn, N. Y., June 5.—Louisville scored all her runs against the Brooklyn at Eastern park this afternoon in the first two innings. Payne was then replaced by Deub, and not another Colonel came within hitting distance of the plate. Hemming was presented with a long foul horsehoe when he took his position in the box. Attendance, 4,507. Score: R H E Brooklyn.....20000210—12 15 6 Louisville.....10000000—5 7 6

Batteries: Brooklyn, Payne, Deub and Grim; Louisville, Hemming and Wilson. Umpire: Hurst.

CLEVELAND & WASHINGTON.
Washington, D. C., June 5.—Today's game was slow, and only saved from being very wearisome by the appearance of Sockalexis and of Tom Tucker. The loss of the game was due largely to the Senators' lack of ability to hit the ball, together with errors. Mercer also was touched up freely. Riley was hit on the head by a pitched ball in the second inning, and Norton took Wiley's place at left, the latter going to third. German went in the box in the eighth. Two hits were made off him. Attendance, 2,500. Score: R H E Washington.....01000000—1 12 6 Cleveland.....01121000—10 11 1

Batteries: Washington, German, Mercer and Farrell; Cleveland, McDermott and Zimmer. Umpire: Egan.

CINCINNATI & PHILADELPHIA.
Philadelphia, Pa., June 5.—Philadelphia could not hit Dwyer today, and Cincinnati won the game in the fifth inning on four two-bases and White's error. The home plate on a run down. Johnson pitched after the fifth inning, and Hoy, on a two-baser in the ninth, was the only man to reach home. Cincinnati put out seventeen on fly balls. Attendance, 14,000. Score: R H E Cincinnati.....01000000—1 12 6 Philadelphia.....00000000—0 12 7

Batteries: Cincinnati, Dwyer and Schriver; Philadelphia, Wheeler, Johnson and Boyle. Umpire—Sheridan.

THE RAINY DAYS

Each Man Makes His Own Sunshine and Shadow

Days of sunshine! In every life there are rainy days and days of sunshine. In every life there are days when the birds sing and the brooks babble and the flowers bloom—there are days when the sky is slatey gray and no bird warbles and the flowers are but withered symbols of the grave, and Nature's music is a monotonous sadsong.

If there is an immediate object in earthly life, that object is to make as many rainy days, of sunshine, and as few rainy days, as possible.

The man or woman who enjoys perfect health is the one who finds in life the most days of sunshine. It isn't a matter of latitude or longitude or climate. It isn't a matter of the clouds overhead or the mud under foot.

Every human is a bird in a cage—a soul imprisoned in a body. If the cage is kept clean and bright and is supplied with pure water and nourishing food, the birds sing and the sun shines, however the skies may weep.

But if the cage is unclean and foul with accumulated dirt and the water polluted and the food poisoned, the bird is mute and disconsolate, and its wings droop and there is no sunshine, be the day ever so bright.

As with the bird, so with the human soul—as with the cage—so with the human body. If ministers of the gospel would only preach of the necessity of bodily health, there would be more healthy souls in the world.

There is a famous physician in Buffalo, N. Y., who for years has stood at the head of his profession in this country. For thirty years he has been chief

diver. It raises the wages of the entire body and pays it through the blood with what it needs most—the life-giving, tissue-building elements of the food. It is the great blood-cleanser and fresh-builder. It cures 98 per cent of all cases of consumption and allied diseases of the throat, bronchia and air-passages generally.

These great medicines have been used with marvelous results by thousands of men and women, who have testified to their wonderful merits. The "Favorite Prescription" and "Golden Medical Discovery" are for sale by all good dealers. An honest dealer will not urge you to take inferior substitutes, for the sake of a little extra profit.

"I can cheerfully recommend your valuable medicine, the 'Favorite Prescription' to suffering females," writes Mrs. Val Lofewer, of 306 South Division St., Mount Vernon, Ohio. "About four years ago my health began to fail. I went to the best doctor in the city, and he said I had ulceration of the womb. He gave me local treatment for seven months. I got better, but not well, and as soon as I stopped taking his medicine I got worse, and was not able to do anything. I felt miserable. Had such bearing down pains and shooting pains. My back ached so bad I could hardly sit or lie down. We had moved from that place and my husband wanted me to go back and take more treatment, but the railroad fare was \$1.35 and the treatments were one dollar each, besides the medicine. I just said we could not afford it. So my sister told me of you. She had doctored with you, so I wrote to you, and began taking the 'Favorite Prescription.' In a week's time I began to improve and I kept on with this treatment. People began to make remarks about how much better I looked. I told everybody what I was taking. I had gained twelve pounds by the time I had taken the second bottle of 'Favorite Prescription.' I took five bottles and then I felt as well as I ever did in my life. Quite a number of my friends

consulting physician to the Invalids' Hotel and Surgical Institute, in Buffalo, one of the greatest medical institutions in the world. During that period, with the assistance of a large corps of medical gentlemen, he has treated and prescribed for hundreds of thousands of patients and every description of disease. His name, which is known from one end of the world to the other, is Dr. R. V. Pierce. Speaking upon the subject of health, he recently said:

"While I am not willing to assert that all crime is a disease, I am willing to say that ill-health leads to every kind of misery and even crime."

"The ill-temper. It frequently leads to that most heinous of crimes—murder. I am willing to stand by the statement that 99 times in 100 ill-temper is largely a manifestation of ill-health. The man or woman who enjoys perfect health, whose bodily machinery runs without a crack, or jar, or wrench, isn't subject to fits of irritability or ebullitions of bad temper. The world presents an ever smiling face to thoroughly healthy people."

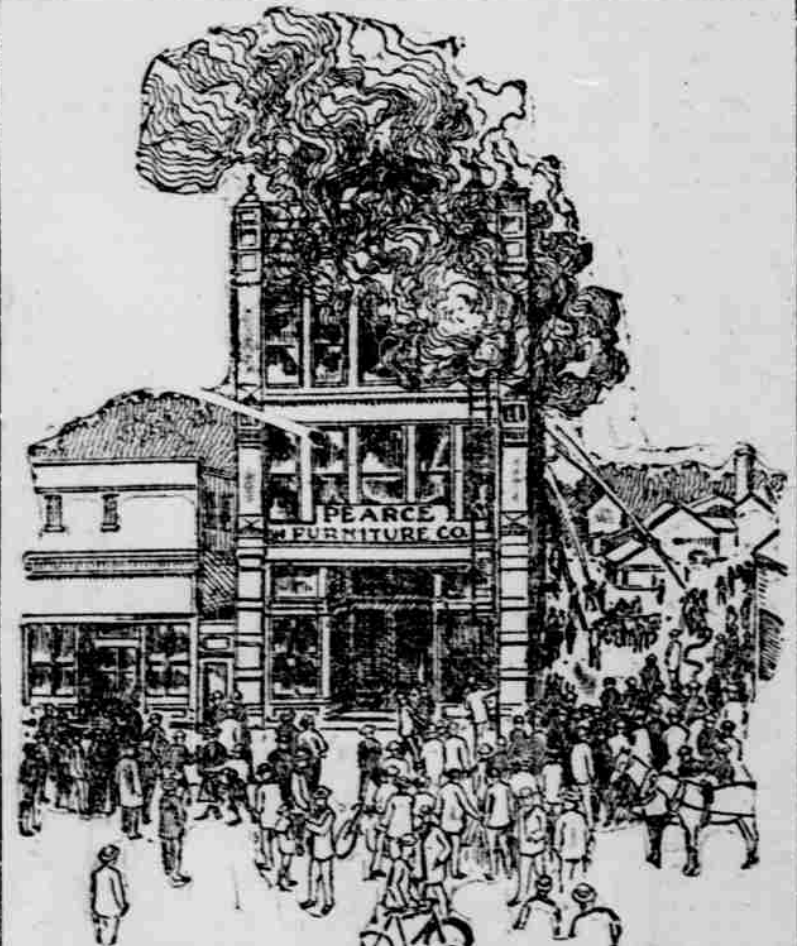

"Our spiritual teachers couldn't do better than to teach the gospel of clean bodies along with that of clean souls. If they'll think a moment, they'll realize that it's hard to grow an upright soul in a deformed or diseased body—that it's difficult to keep a soul healthy and clean in a foul, impure, sickly dungeon of a body."

According to Dr. Pierce, who is a skilled specialist in the diseases of women, ill-temper in a woman is almost invariably a manifestation of weakness and disease of the distinctly feminine organs. When a woman suffers in this way her whole body sympathizes and "gets out of kilter." Her nerves are tortured. Her brain is nagged by continual protests from the nerves from the suffering organs. She gets irritable and dependent. Her general health breaks down. Then she either dies in childbirth, or drags out a weary life as an invalid or in an asylum. There is a sure and speedy cure for women's ills of this description. It is the discovery of the eminent physician hereafter referred to, and is known as Dr. Pierce's Favorite Prescription. It has a specific action on the delicate and important organs concerned. It makes them strong and well. It fits for wifehood and motherhood. Taken during the expectancy of motherhood, it banishes the usual discomforts, and makes baby's advent easy, early and almost painless. It soothes and tones the nerves and gives nature an opportunity to build up the general health. It is the best of medicines for women.

A scolding, fault-finding husband is generally a sick one. A well man usually sees the sunny side of life, but every day that a rainy day to the man whose stomach is "out of kilter" and whose liver has gone on a strike. A man in this condition is sure to be cross and irritable, and likely to break down with nervous prostration, consumption or some other equally serious disease. Dr. Pierce's Golden Medical Discovery is the best medicine for men who are either "out of kilter" or really sick. It puts the stomach in work.

FIRE, SMOKE, WATER

At the Pearce-Lyon Furniture Co., 614-616 East Douglas.

The above picture is from a snap shot made by Gerald Volk at the time our store was in flames last Sunday, May 30. Thanks to the efficiency of the fire department, nearly all of our goods were saved, but were slightly damaged by smoke and water. The loss is now being adjusted by the insurance companies. The goods will be sacrificed and

Their Loss is Your Gain.

On Monday morning, June 7, we will place on sale our Mammoth Stock of Fine Furniture which will be sold regardless of cost. If you want anything in the Furniture line, come and avail yourself of this rare opportunity to furnish your home for little money.

PEARCE-LYON FURNITURE CO.

Near Santa Fe Depot.
